

LIFTS ALL

LIFTING BOARDS AND STEEL SHEETS

Lifts All is one of the world's leading manufacturers of lifting tools. Our wide product range supplies industries all over the globe with tailor-made ergonomic solutions. We lift all!

PROWOOD

Instead of lifting manually with one or several persons - or even using a fork lift - ProWood has grown popular among many door and kitchen furniture manufacturers who lifts wooden boards of different sizes. Adjustable length and width of the placement of the vacuum cups, low building height and the ergonomic design are great advantages.

Smooth and safe lifting

A green eye indicates when the right vacuum level has been reached and when it is safe to lift. During lifting, the load guard function protects from accidentally releasing the board. Proportional control makes it easy to place the board very carefully without it being damaged. If the board is to be mounted it can be weightlessly manipulated +/- 10 cm with the hands on the board, without using the control unit.

Lifts all kinds of boards

There are three different models - ProWood Mini, Prowood and ProWood Maxi. The ProWood can be chosen with or without tilt function. All of them have vacuum cups that are adjustable in length and width. The adjustments are easily made by the user, without using any tools.

ProWood

Max load: 100 kg with tilt/ 120 kg without tilt

Control: Pro Speed Handle (PSH)

Height of gripper: 995 mm with tilt/ 748 mm without tilt

Functions: Lifting boards and sheets. Adjustable vacuum cups

Without tilt X: 440 - 1640 mm Y: 495 - 1045 mm

With tilt X: 660 - 1640 mm Y: 645 - 1045 mm

STEERING

Pro Speed-Handle - proportional lifts

The Pro Speed-Handle's (PSH) proportional control of movement up and down means that a gentle push on the button smoothly moves the load. A harder push moves the load faster. Flexibility in the Bal-Trol enables fine tuning of vertical position by +/- 10 cm by manual influence directly on the board or sheet.

ProWood Maxi

Max load: 200 kg

Height of gripper: 1028 mm

Control: Pro Speed Handle (PSH)

Functions: Lifting and tilting boards and sheets. Adjustable vacuum cups. X: 690 - 1645 mm Y: 724 - 1044 mm

ProWood Mini

ProWood Mini

Max load: 70 kg

Height of gripper: 677 mm

Control: Pro Speed Handle (PSH)

Functions: Lifting and tilting boards and sheets. Adjustable vacuum cups. X: 510 - 610 mm Y: 305 - 605 mm

YOUR COMPLETE LIFTING SYSTEM

Overhead rail system

Bal-Trol

Basic

Overhead rail system

Our lightweight overhead rail system is extremely flexible and silent.

Bal-Trol

The small, flexible lifting cylinder is powered by compressed air only.

Basic

With the all-round lift Basic lifting is quick and smooth!
